Audit and Assurance Arrangements

The Public Appointments Service has a number of audit and other arrangements in place which, together, provide assurance that the organisation is managing its resources properly and that it is actively assessing and managing risk. This is an accompanying document to the Corporate Governance Framework.

Role of Audit Committee and reporting arrangements to the Chief Executive

PAS has an Audit Committee which operates in accordance with published Civil Service guidance\(^1\). The Audit Committee has an independent role in the provision of assurance to the Chief Executive. This includes consideration of the adequacy and effectiveness of the internal control systems, control environment and control procedures within PAS. The Committee also oversees the Internal Audit function within PAS and provides advice and professional guidance to the Chief Executive in relation to the development of the internal audit function. The Audit Committee also provides advice and guidance in relation to the systems of risk management and internal control within PAS.

The PAS Audit Committee operates under a written charter and includes external representation with appropriate expertise. The Chairperson of the Audit Committee, and all Committee Members, are external to PAS.

The Audit Committee prepares an annual report to the Accounting Officer, reviewing its operations, and invites the Office of the Comptroller and Auditor General, as the external auditor of PAS, to meet with it at least once a year\(^2\);

The Internal Audit function in PAS

The majority of the Internal Audit function’s reviews are outsourced to a professional services firm. The function operates to a three-year audit plan approved by the Chief Executive and under the oversight of the Audit Committee.

\(^{2}\)Public Financial Procedures.
All draft audit reports are submitted to appropriate members of the PAS Management Board for the preparation of management responses. Once finalised, the completion of any actions arising is tracked and monitored via regular reports by PAS management to the PAS Audit Committee.

The Head of Corporate Services is also a member of the Civil Service “Heads of Internal Audit Forum” which provides a forum for the discussion of policy and operational issues relating to internal audit within civil service bodies as well as disseminating good practice and new developments within the internal audit profession.

**Risk Management**

PAS has a risk management system in place. This includes a Risk Management Framework and Risk Management Policy appropriate to the size and scale of the organisation and is in accordance with the relevant Civil Service Risk Management Guidance. An integrated and holistic approach to risk management is one of the key elements to achieving effective corporate governance. PAS takes its risk management responsibilities seriously and has processes in place to respond appropriately to significant business, strategic, operational, financial, compliance and other risks that threaten the successful achievement of the strategic and operational objectives of the organisation.

Risk Management is a standing item on the agenda of each meeting of the PAS Management Board. A Risk Management Group oversees the implementation and monitoring of this process. This group operates under the terms specified in the Risk Management Strategy and Policy outlined later in this document. The Group reports to the Internal Audit Committee at each meeting, and updates on current risks facing the organisation are given to the Board of PAS at each meeting. The Group (through the Chair) report to the Management Board following each meeting of the Risk Management Group.
Internal Audit Charter

Introduction

This Charter sets out the purpose, authority and responsibilities of the Internal Audit function in the Public Appointments Service.

Internal Audit Function

In accordance with the recommendations of the Accountability of Secretaries General and Accounting Officers, the Public Appointments Service is committed to maintaining and supporting a quality internal audit function.

The Internal Audit function will conduct its activities in accordance with the Internal Audit Standards issued by the Department of Public Expenditure and Reform and will have regard to best practice as enunciated by the Institute of Internal Auditors.

The Public Appointments Service will as necessary retain the services of an independent and suitably qualified Auditor.

The Internal Audit function ensures that an appropriate contract is put in place for outsourced internal audits and ensures that the contract terms are met and that the audits are conducted to a high standard.

Role and Responsibilities

The primary role of Internal Audit within the Office is to give assurance to the Accounting Officer and the Audit Committee as to the adequacy and effectiveness of the office’s internal control system and the risk management environment.

Responsibility for internal control, including the prevention and detection of fraud and risk management, rests fully with line managers who, notwithstanding audit activity, ensure that appropriate and adequate arrangements exist within their area of responsibility. Responsibility for implementation of audit recommendations also rests fully with the line management concerned.
Scope

The Internal Audit function will review and appraise the following:

(a) The adequacy, reliability and integrity of the information being provided for
decision making and for accountability, and the extent to which this
information is used;

(b) The degree of compliance with legislation (domestic and international) and
other requirements laid down centrally (i.e. Department of Public Expenditure
and Reform) and management plans, procedures and policies;

(c) The acquisition and disposal of assets and the safeguarding of assets and
interests from losses, including those arising from fraud, malpractice and
irregularity;

(d) Arrangements for the economic and efficient use of resources within the area
under review.

In discharging this responsibility Internal Audit will also identify and report on any
deficiency or weakness in systems and controls and make appropriate
recommendations for improvement.

The Internal Audit Function will ensure that all information and records are treated in
the strictest confidence throughout the Audit process. The Internal Auditor is
responsible for ensuring the confidentiality and safekeeping of all records and
information accessed in the course of its work.

Authority

The Internal Audit function derives its authority from the Accounting Officer.

In order to perform its functions, internal audit staff are authorised by the Accounting
Officer to have full, free and unrestricted access to all the Office’s records, assets
and personnel at all reasonable times, and are entitled to request and receive all the
information and explanations they require for the proper performance of their duties.
Independence

To ensure the independence and objectivity of the Internal Audit function, the function will not assume operating responsibilities for, and will remain independent of, the activities it audits. This is to provide it with an environment in which it can make unbiased judgements and provide impartial advice to management.

Internal Audit Universe

The internal audit unit has the right to review all the management and control systems, both financial and operational. The internal audit unit has unrestricted access to all functional areas, records (both manual and electronic), property and personnel in the performance of its audits.

Audit Methodology

The internal audit function will produce a three-year audit work plan for all areas under its remit. The plan will be approved by the Accounting Officer and the Audit Committee.

In the course of each audit the Internal Audit function/outsourced Internal Auditor will:

- work constructively with management and staff
- give adequate notice to the Head of Sections prior to the commencement of an audit
- determine and confirm system to be audited with line management
- discuss progress with the relevant line manager and liaise with the Head of Corporate Services throughout the audit process
- issue a draft report to the relevant line manager to confirm its factual accuracy and to agree where possible the conclusions and recommendations for improvements
- agree a timescale for managements’ response
- issue the report, incorporating managements’ response to the relevant line manager, relevant Head of Section and Head of Corporate Services
- issue the report to Accounting Officer for review
- present the final report to Audit Committee
➢ circulate the final report to Management Board and Senior Management Team.

The final reports will also issue to the Comptroller and Auditor General as requested.

Follow-up reports will be carried out within a timescale to be determined by the Audit Committee. Summary follow-up reviews will issue to the audit committee informing them of any instances where audit recommendations have not been implemented as agreed.

Where Internal Audit and management fail to reach agreement on issues/recommendations considered to be of material importance by Internal Audit, the final audit report will reflect the position of both. The Audit Committee’s attention will be drawn specifically to these issues/recommendations, so that appropriate action can be taken.
Audit Committee Charter and Terms of Reference

PURPOSE

The Audit Committee is part of the control environment, tasked with providing independent advice to the Accounting Officer regarding the suitability and robustness of the organisation’s internal control systems and procedures.

AUTHORITY

- The Audit Committee is appointed to provide independent advice to the Accounting Officer and is responsible to him/her for its performance in this regard.

- The Audit Committee shall have the authority to investigate any matters within its terms of reference; the resources, and outside professional advice, it needs to do so and full access to information.

MEMBERSHIP

- The Accounting Officer will appoint members and the Chairperson, unless otherwise provided by law.

- The Chairperson of the Committee will come from outside the organisation, and has right of access to the Accounting Officer.

- All members of the Committee will be external to the organisation.

- At least one member of the Committee will be a nominee of the PAS Board.

- The Committee will collectively possess an appropriate range of skills to perform its function to the required standard. At least one member will have relevant financial experience and other members will have experience relevant to the audit committee, including: risk management; internal audit; governance; an understanding of the public sector environment, in particular accountability structures and current public sector reform initiatives.
• Members should have, or should acquire as soon as possible after appointment, an understanding of:

- Organisational culture, objectives and challenges
- Organisational structure, including key relationships
- Relevant legislation or other rules governing the organisation.

• The role requirements will be clearly communicated to potential members at the outset including time commitments and an indication of frequency of meetings.

• Members may serve a three year term, with the option to extend by a further three year term.

• A statement of members’ interests will be prepared on an annual basis.

• Where a conflict of interest arises in the course of the work of the Audit Committee, the member will bring this to the attention of the Chairperson and, where necessary, leave the room for the duration of the discussion and not take part in any decisions relating to the discussion. A note to this effect will be included in the minutes of the meeting. Declarations of conflicts of interest is a standing item on all committee meeting agendas.

MEETINGS

• To facilitate regular engagement with the organisation, the Audit Committee will meet at least quarterly, with the authority to convene additional meetings as circumstances require.

• All committee members are expected to attend each meeting. Each member must meet the minimum attendance of 75% at audit committee meetings. A quorum shall consist of three Committee members, and in the absence of the Chairperson, a deputy Chairperson will be chosen from members and will chair the meeting.
• If a vote is required on any issue, a simple majority of all members present, including the Chairperson, will carry the motion, with the Chairperson having the casting vote in the event of a tie.

• Each member should take personal responsibility to declare any potential conflicts of interest arising in relation to any items on the agenda for the meeting.

• The Audit Committee should invite members of management, internal auditors or others to attend meetings and provide information, as necessary.

• The Chairperson of the Audit Committee will meet with the Accounting Officer annually.

• The committee should ensure that it communicates effectively with the Board, the Head of Internal Audit, the external auditor and other stakeholders.

• Any internal audit or audit items that relate to the Board’s areas of responsibilities should be communicated to the Board as soon as they are identified.

• The agenda and supporting papers shall be circulated to all members at least one week prior to the meeting.

• The agenda of the Audit Committee will be approved by the Chairperson and each Member of the Committee shall be entitled to put forward matters for inclusion on the Agenda.

• Draft minutes will be prepared and, once approved by the Internal Audit Committee, will be circulated to the Accounting Officer and Management Team with the aim of circulating them within ten working days of the date of the meeting.

• The Head of Corporate Services (with responsibility for Internal Audit and Finance) shall normally attend meetings. In addition, such persons as are from time to time invited by the Chairperson to attend may attend.
- The Internal Auditor will attend the relevant portion of meetings required to present any audit report prepared by them.

- Appropriate records of the work of the Audit Committee will be maintained.

- The Committee will make minutes of Internal Audit Committee meetings available to the Board of PAS.

- The Internal Audit unit will provide administrative support to the Audit Committee.

**ACCESS**

- The Chairperson of the Audit Committee shall have a right of access to the CEO on any matter pertaining to the internal audit function as the Committee considers appropriate or necessary, including its overall effectiveness, resources, training, use of technology etc.

- The Audit Committee shall have a right of access to such information or documents, which, in the Committee’s opinion are relevant to matters falling within its terms of reference.

**FUNCTIONS**

The Audit Committee will carry out the following functions:

**Internal Control**

- Advise on the organisation’s internal control systems, including information technology security and control.

- Obtain and review internal audit reports, significant findings and recommendations together with management responses.

- Monitor management’s implementation of audit recommendations from internal audit, external audit and other sources.
Governance and Risk Management

- Advise on the systems of control underlying the risk management framework and processes, including:
  - receiving feedback from the Head of Corporate Services (with responsibility for Internal Audit and Finance) and the organisation’s management on the effectiveness of the risk management process; and
  - taking such feedback into account for input into the priorities of the Internal Audit Unit work programme.

Internal Audit

- Review assessments of the internal audit function, including compliance with the Internal Audit Standards; evaluation of conformance with the IIA Standards 1300 (the results of which will be communicated to the Accounting Officer and Audit Committee) will be conducted every three to five years.

- Review with the Head of Corporate Services (with responsibility for Internal Audit and Finance) and as necessary discuss with management, the Internal Audit Unit’s charter, audit plans, activities, staffing, and organisational status.

- Receive progress reports on the audit plan assignments.

- Raise any concerns with Accounting Officer regarding the independence of the Internal Audit unit.

- On a regular basis, meet separately with the Head of Corporate Services (with responsibility for Internal Audit and Finance) to discuss any matters that the Audit Committee or Internal Audit Unit believes should be discussed privately.
**External Audit**

- On at least an annual basis, meet with the nominee of the Comptroller and Auditor General.

- Review the Internal Audit working relationship and liaison with the nominee of the Comptroller and Auditor General to ensure co-operation, avoidance of duplication and potential gaps in audit coverage.

- Review the external audit management letter and the organisational response.

**Financial Management**

- Advise on the systems of control underlying the financial management processes, including:
  - reviewing the results of the external audit; and
  - reviewing the procedures and practices associated with financial management and budgeting.

**Reporting Functions**

- Regularly report to the Accounting Officer about audit committee activities, issues, and related recommendations by:
  - circulating to the Accounting Officer and the Management Board the agreed minutes of audit committee meetings as a matter of normal practice;
  - submitting an annual report to the Accounting Officer, within three months following year end, of the activities of the Audit Committee; and
  - availing of the Chairperson’s right of access to the Accounting Officer.

- Provide an open avenue of communication between internal audit, the Office of the Comptroller and Auditor General, and the Accounting Officer.

**Other Functions**

- Promote good accounting practices, ensuring better and more informed decision making and improved focus on value for money throughout the organisation.
• Perform other activities related to the charter as requested by the Accounting Officer.

• Review and assess the adequacy of the written charter on an annual basis and request Accounting Officer approval for proposed changes.

• Respond to any special reporting requests, on matters relevant to the Committee, made by the Chief Executive Officer.

• The Audit Committee may, following consultation with the CEO, obtain outside legal or other independent professional advice and secure the attendance at Committee meetings of outsiders with relevant experience and expertise if it considers this to be essential.

• Confirm annually that all functions outlined in the written charter have been carried out.

• The Audit Committee evaluates its own performance on a regular basis.
ANNUAL REPORT

An annual report reviewing the Audit Committee’s operations should be prepared for the Accounting Officer and submitted within three months following year end. This report will include an assessment on the work of the Internal Audit Unit, the supports provided to the Audit Committee and a self-assessment of the Audit Committee’s own effectiveness.

The annual report will also include confirmation that a review of this written charter has been completed on an annual basis and that all functions outlined in the written charter have been carried out. The Audit Committee will follow up on any recommendations from the Accounting Officer arising from this report, or in the course of other interactions.

PROTECTED DISCLOSURES

The role of the Audit Committee in relation to protected disclosures is agreed with the Accounting Officer, in line with organisational policy and any relevant guidelines.
Quality Assurance and Improvement Programme

Introduction

Internal Audit’s Quality Assurance Improvement Programme (QAIP) is designed to provide reasonable assurance to the various stakeholders (the Audit Committee, Senior Management, the Board of PAS, the Comptroller and Auditor, etc.) that Internal Audit:

- Conforms to the definition of internal auditing, IIA standards 1300 and any central policy guidance;
- Has an adequate internal audit charter, goals, objectives, policies and procedures;
- Contributes to the organisation’s governance, risk management and control processes;
- Has complete coverage of the audit universe;
- Complies with applicable laws, regulations and other standards that the internal audit activity may be subject to;
- Has identified the risks affecting the operation of the internal audit activity itself;
- Has an effective continuous improvement activity in place and adopts best practice; and
- Adds value to improve the organisations operations and contributes the attainment of the organisation’s objectives.

The Head of Corporate Services is ultimately responsible for the QAIP, which covers all types of Internal Audit activities, including outsourced internal audits. The QAIP includes both internal and external assessments. Internal assessments are both ongoing and periodical and external assessments will be undertaken at least once every three to five years.

The QAIP is reviewed on an annual basis.

Internal Assessments

Internal Assessments are made up of both ongoing reviews and periodic reviews.
**Ongoing reviews**

Ongoing reviews provide assurance that the processes in place are working effectively to ensure that quality is delivered on an audit by audit basis. This includes continuous monitoring of:

- Engagement planning and supervision (preapproval of the audit scope, innovative best practices, budgeted hours, and assigned staff with key performance indicators set for each audit);
- Standard working practices (including working paper procedures, sign off, report review, checklists to ensure that the audit process has been followed);
- Feedback from stakeholders on quality at audit level; and
- Analysing performance metrics to measure audit plan completion and stakeholder value.

**Periodic reviews**

Periodic assessments are designed to assess conformance with Internal Audit’s Charter, the IIA Standards, the quality of the audit work, policies and procedures supporting the internal audit activity, the added value to the organisation and the achievement of performance standards.

Periodic assessments will be conducted through an annual review of:

- Working paper reviews for conformance to IIA Standards, and internal audit policies and procedures;
- Internal audit performance measures including implementation of the Strategic Audit Plan;
- Assessment of quality at internal audit activity level;
- Implementation of recommendations made during that year (based on a re-assessment of the implementation of all recommendations);
- Annual review of all relevant Charters, Policies and Procedures.

The periodic self assessment should identify the quality of ongoing performance and opportunities for improvement. The self assessment will be completed on an annual basis and the results reported to the Audit Committee and Senior Management.
External Assessment

The External Assessment will consist of a broad scope of coverage that includes the following:

- Conformance with the IIA Standards, definition of Internal Auditing, and internal audit’s Charter, plans, policies, procedures, practices, and any applicable legislative and regulatory requirements;
- Expectations of Internal Audit as expressed by the Board and Senior Management;
- Integration of the Internal Audit activity into the governance process;
- The mix of staff knowledge, experiences, and disciplines, including use of tools and techniques, and process improvements;
- A determination as to whether Internal Audit adds value and improves PAS operations.

An external assessment will be conducted every three to five years by a qualified, independent assessor from outside PAS. The assessment will be in the form of a full external assessment, or a self-assessment with independent external validation. The format of the external assessment will be agreed with the Audit Committee, Head of Corporate Services and the CEO.

Awareness Raising

Annual awareness will be conducted into the area of corporate compliance (including internal audit, risk management and CPSA compliance).
Risk Management Strategy and Policy

Introduction

In order to look ahead and meet the demands from stakeholders, PAS needs to constantly adapt and consider the way in which it operates. Change inevitably involves taking risks. Understanding all of our risks will enable PAS to take informed and better decisions and ultimately create increased added value for stakeholders.

This Risk Management Strategy and Framework presents the PAS’s approach to risk management. This document has been approved by the CEO. The purpose of this document is to:

- Summarise the approach for risk management within the PAS.
- Outline the responsibilities for risk management within the PAS for the following:
  - Board
  - Management Board
  - Chief Executive Officer
  - Heads of Function
  - Functions
  - Risk Management Group
  - Audit Committee
  - Risk Officer
  - Risk and Action Owner
  - Staff
  - Internal Audit

This document has been designed to assist the organisation to identify, mitigate and report on the key risks that will prevent the PAS from achieving its objectives as outlined in the business plan.

Responsibility for the identification, mitigation and reporting of risks will initially reside with the Risk Management Group and the Management Board.
Objectives

Risk Management is the process by which risks are identified, assessed, managed and controlled.

The purpose of a Risk Management Policy is to provide a framework for management to identify, assess, rate and develop strategies to deal with risks in order to provide reasonable assurance that the PAS’s strategic objectives will be achieved.

The Risk Management objectives of the PAS include:

- Raise awareness of the need for risk management;
- Integrate risk management within the culture of the organisation;
- Manage risk in accordance with best practice;
- Ensure that all key risks are identified and assessed;
- Ensure that an adequate system of internal control is in place to manage all risks; and
- Ensure that the Senior Management Team and staff are aware of risks and their responsibilities.

Appendix 1 sets out summary of definitions.

Background

It is the intention of the PAS to comply with best practice governance and accountability obligations as appropriate.

PAS has always incorporated risk assessment as part of the strategic and operational decision making process. It has a strong control environment, which has been strengthened by new controls that have been put in place, as required.

Risks to the achievement of the organisation’s strategic goals should be managed proactively with a view to optimising the probability of successful achievement of the goals.
A Risk Management Group will be maintained, with a membership representative of
the various functions in the organisation, to provide support to the ongoing
implementation of the risk management framework.

The effectiveness of the framework and the key risks identified for the organisation
will be reviewed by the Management Board on a quarterly basis.

Risk Management and Mission Statement

The Risk Management Policy of the PAS is to adopt best practice in the identification,
assessment and control of risks to ensure that they are eliminated or reduced to a
level acceptable to the SMT in the achievement of its objectives.

Risk Profile

Risk is defined as anything that prevents an organisation from achieving its
objectives.

The PAS utilises a number of planning, reporting and risk management processes to
ensure it operates towards the best standard applicable. It is essential that all key
risks be identified and controlled/deemed acceptable and that all risk events be
reported and fully investigated.

Persons Affected

The persons affected by this policy are outlined in this the document.

Scope of the Policy

The scope of this policy is to establish a framework to identify potential events that
may expose PAS to risk, to control and manage this risk within the Management
Board’s risk appetite, and to provide reasonable assurance regarding the
achievement of the organisational objectives.

The process can be described as follows:
Risk management is an umbrella discipline that cuts across all areas of PAS’s activities. This reflects the fact that risks permeate across all activities and functions. However to facilitate the capturing and reporting of risks in a consistent manner the following categories of risks have been identified:

- Strategic
- Reputational
- Financial
- Operational

This policy sets out the following:

- Roles and Responsibilities
- Risk Identification and Assessment Process
- Risk Monitoring and Reporting Process.
Roles and Responsibilities

The various roles and responsibilities are summarised hereunder:

<table>
<thead>
<tr>
<th>Area</th>
<th>Responsibilities</th>
</tr>
</thead>
<tbody>
<tr>
<td>Board</td>
<td>• Formally approves the Risk Management Policy.</td>
</tr>
<tr>
<td></td>
<td>• Review any updates in the PAS’s risk management documentation, as required.</td>

</tbody>
</table>
| **Audit Committee**          | • Review the Risk Management Policy.  
• Have risk management as a standing agenda item.  
• Review the corporate risk register.  
• Review the authority, scope and resources of Internal Audit.  
• Approve the risk based internal audit plan.  
• Provide guidance on the internal audit function focusing on key areas for review. |
| **Function**                 | • Carry out a risk identification exercise on an annual basis to coincide with the development of the function’s business plan. The main risks identified through this exercise will be recorded in the corporate risk register. It is not expected that these risk should exceed ten in number for any one function.  
• Review the functional risk register on a bi annual basis in conjunction with the business plan review.  
• Be aware of significant risks that come within their area of responsibility, the possible impacts those risks could have on other areas of the office and the consequences other unit’s risks could have on them  
• Report systematically and promptly to the Management Board about risk management, in particular about perceived new risks or failures of existing controls |
| **Head of Function**         | • Conduct interim reviews of the list of identified risks at functional level so that these risks are managed.  
• Document the controls that are in place to mitigate against the risk materialising. |
| **Risk Officer (Chair of the Risk Management Group)** | • Report directly to the Management Board after each Risk Management Group meeting.  
• Support the Audit Committee, Senior Management Team and staff in fulfilling their responsibilities by providing a comprehensive framework to identify, develop, manage, monitor and report on risks within the PAS.  
• Responsible for developing and implementing PAS’s Policies on Risk Management.  
• Provide on-going guidance to Risk and Action Owner regarding the identification and management of risks, including ensuring that all relevant risks are assessed and that risks are scored in a consistent manner.  
• Ensuring that sufficient risk management training is provided to management and staff. |

**Risk identification and Assessment Process**

a) **Risk Identification**

Risks will be identified, assessed and controlled through the following steps:
• Risk identification involves summarising the PAS’s exposure to uncertainty through consideration of its service delivery, reputation, financial, legal, HR and infrastructure environment as well as its strategic and operational objectives. In summary, risks will be categorised as:
  − Strategic: Risk that policies, procedures, systems or activities would fail, thus, restricting progress towards achieving organisational objectives.
  − Reputational: Risk that the organisation would engage in activities or be perceived to engage in activities that would threaten its good name brand and public image.
  − Financial: Risk of failing to safeguard the organisations assets, financial misreporting or failure to achieve value for money.
  − Operational: Risk that policies, procedures, systems or activities would fail, thus, restricting progress towards achieving organisational objectives.

• A thorough risk identification exercise will be carried out in each function annually, to coincide with the development of the function’s business plan. This will include:
  − Review of ongoing risks to the functioning of the division;
  − New risks which arise from the changes proposed in the business plan; and
  − Potential risks arising as a result of the changing environment.

• The agreed Risk Appetite Statement (Appendix 5) must be taken into consideration when considering risk.

• The main risks identified through this exercise will be recorded on the corporate (or functional) risk register. It is not expected that these risks will exceed ten in number for any one function.

• Interim reviews of the list of identified risks will be managed by the head of function, where there is a change to the strategic or operational agenda or where there are changes to the external environment which could introduce additional risks.
b) Risk Assessment

Risks identified at a) above should be assessed to determine:

(i) The likelihood of the risk materialising.
(ii) The consequence on the strategic goals of the organisation if the risk were to materialise.

Output from the above assessment will be captured on the corporate (or functional) risk register.

- Risks will be assessed on a scale of 1 – 5 in terms of impact:

  ➢ IMPACT: scale of 1 - 5

  1. Insignificant
  2. Minor significance
  3. Moderate
  4. Major
  5. Catastrophic

  Appendix II provided further information on the above.

- Risks will be assessed on a scale of 1 – 5 in terms of likelihood:

  ➢ LIKELIHOOD: scale of 1 - 5

  1. Rare
  2. Unlikely
  3. Likely
  4. Very likely
  5. Almost certain

  Appendix III provides further information on the above.
• On a regular basis, at the functional meeting, those management controls which have the effect of preventing a risk from materialising or reducing the negative impact of a risk to within acceptable levels should be considered to determine

(i) What controls are already in place to prevent the risk materialising or to mitigate the impact if it does materialise
(ii) The adequacy of these controls to manage the risk to within acceptable levels
(iii) Additional controls / actions required to reduce the risk rating to within acceptable levels
(iv) The owner for the risk and the owner of the actions agreed under (iii) above
(v) The due date for the actions agreed under (iii) above.

• The head of function is expected to document the controls that are in place to mitigate against the risks materialising. The control descriptions are included in the corporate (or functional) risk register.

• Each head of function together with their staff is responsible for implementing and enforcing controls that effectively manage and mitigate risks identified, to a level that is within the tolerance limits approved by the SMT. In considering the effectiveness of controls consideration will be given to the appropriate balance between the cost of implementing, the likelihood and potential impact of the risk event if it occurred and residual risk.

• Risks identified are then scored/assessed based on the impact and likelihood criteria as outlined above.

• The risk rating focuses on ‘gross’ risk and ‘net’ risk. Gross risk assesses the impact and likelihood of a risk prior to application of key controls. Net risk assesses the impact and likelihood of a risk post the application of the key controls. It is the responsibility of the PAS to ensure that a system is in place to review and consider controls identified to ensure that they are operating effectively on an on-going basis. The higher the total score of each risk, the more immediate action it requires. All risks should be planned for but resources must
be channelled to those risks most likely to occur and which have the most serious consequences.

• The total score of the risk is then considered on a range of:

  - High  16 - 25
  - Medium  9 - 15
  - Low  1 - 8

• The effectiveness of existing controls is estimated using a scale of 1 to 3 where “1” is “highly effective” and 3 is “no controls/controls ineffective”. This should be multiplied by the total net risk score to determine the overall level of risk.

• All risks, having being identified and assessed, will be documented on the corporate risk register.

**Action Plans**

• Where controls are deemed to be less than adequate in the light of the PAS’s risk appetite, an action plan will be put in place to increase the level of control effectiveness. The Risk and Action Owner will be identified and a time scale agreed within which the action plan will be implemented. This information is also documented in the corporate risk register.

• Where mitigating actions / controls exist but are not being followed and monitored, then it is the PAS’s policy that it is deemed that adequate controls do not exist, as in order for mitigating practices / controls to be effective they also must be communicated, actioned and monitored. This information is also documented in the corporate risk register.

• As a result of the risk and control assessment process, actions with clear accountabilities will be set for all risks where gaps in the control environment are identified. These action plans as determined by the Senior Management Team are developed to introduce new controls or improve existing controls as required.
• To ensure accountability these actions will be linked to the risk and therefore to the underlying business objective. If this part of the process does not occur then the benefits of the risk identification process will not be realised. The Senior Management Team is tasked with delivering under the business objective will also be responsible for delivering under these actions.

• All corporate risk controls to be implemented will be recorded in the Quality Action Plan and monitored by the Senior Management Quality Group until implemented.

• A formal audit trail must exist that relates the risk identification and assessment process to the actions arising.

• The action plans will set out the following:
  
  − Planned control actions to address risk
  − Responsibility for undertaking the planned activities
  − Timeline for action.

• The Risk Management Group monitors the implementation of the mitigating control action plans and report after each risk management group meeting (through the Chair of the Risk Management Group) if there are any difficulties arising in relation to the progress of same to the Management Board.

**Risk Monitoring and Reporting Process**

The output of the above, which is captured on the corporate risk register is the key reporting and monitoring tool for risk management in the organisation.

A risk management “champion” has been nominated in each function (i.e. Member of the Risk Management Group). This person will ensure that the risk management policy is implemented and that the output, in the form of an updated risk register, is copied to the secretary of the risk management group.
Staff can report a risk at any time by using the “Report a Risk” option on the Intranet. Any such risks reported will be discussed by the Risk Management Group at their next meeting and appropriate actions identified.

The risk management group will produce an annual plan of activity and will report to the Management Board after each Risk Management meeting on (i) progress against plan and (ii) effectiveness of the risk management framework in the organisation.

Prior to the introduction of new initiatives / projects, a comprehensive risk analysis exercise will be undertaken and noted. The appropriate risk register(s) will be updated and controls added to the risk register and the Quality Action Plan where appropriate.

**Incident Management Policy**

All incidents (and “near misses”) rated at “3” in terms of impact will be reviewed by the relevant senior manager and the overall estimated rating compared to the risk statement to determine its seriousness. Any incident which is rated at the same level or higher than the risk appetite will be escalated to either (or both) the Risk Management Group and the Senior Management Team / Management Board for review (using the Incident Report form – Appendix 4). The appropriate risk register(s) will be updated following this review.

Risks rated below the risk appetite will be managed at a local level with controls put in place to mitigate the risk and both the risk and controls recorded in the functional risk register. Consideration will be given to other similar risks / potential incidents which may occur.

All relevant incidents / “near misses” will also be explored with the HEO and Senior Management meetings where issues impacting on quality are shared and shared learning points identified (noted as a Standing Item on all HEOs meetings). These learning points will then passed on from the HEOs to their teams. A mitigation plan for reducing the impact of these incidents / risks will be agreed and actioned (through the HEO Group or Quality Group or other agreed fora).
All major business continuity related events will be reviewed in terms of key learning identified in order to reduce the impact over these risks where PAS does not have control.

Training

Training will be provided to the Risk Management Group every two years to ensure that they are kept up-to-date on developments in risk management in the public service and other relevant corporate governance related issues.

Awareness raising training will be provided to all staff every year; this will include:

- Risk Management Objectives
- Functional Responsibilities
- Line Manager Responsibilities
- Staff Responsibilities

Staff will also be encouraged at Business Awareness Sessions to share and discuss learning incidents and issues impacting on quality in order to ensure ongoing innovation and quality improvements.
Role of the Audit Function in PAS

- Revise Charter and Terms of Reference for both the Internal Audit Function and Internal Audit Committee on an annual basis
- Develop Strategic Audit Plan every three years
- Ensure agreed audit programme is implemented
- Provide administrative support to the Audit Committee and act as Secretary
- Conduct agreed internal audits and report to management on findings
- Liaise with outsourced Internal Auditors as necessary
- Maintain records of work carried out and expenditure of outsourced Internal Auditors
- Report to the Accounting Officer/Board on progress
- Prepare an Annual Report for the Audit Committee in January of each year
- Invite C&AG to attend Audit Committee Meeting each year
- Issue follow-up questionnaires on all audit reports following circulation
- Maintain progress report on implementation
- Report to Audit Committee on implementation of recommendations
- Review implementation of all recommendations on an annual basis and issue report to Committee
- Issue all Audit Reports to senior managers and put on Intranet
- Ensure awareness of improved methods of auditing/developments in this area
- Embed the concept of audit throughout the office
- Carry out procurement exercise to retain the services of professional Internal Auditors
- Review membership of Committee every three years
FLOWCHARTS FOR INTERNAL AUDIT SYSTEMS

Internal Audit Committee

1. Audit Committee members identified by Accounting Officer and approved at Board level.

2. One member representative of Board, Chair is external to office and one member should have public sector accountancy knowledge.

3. Issue "Thank you" letter with details of term of office to members

4. Prepare induction pack - Terms of Reference, Background information etc.

5. Contact the Department of Public Expenditure and Reform for approval to pay external audit committee members

6. Advise external members of payment details and enclose copy of approval

7. Send email to Finance Unit after each meeting to process payment - quote reference number of approval letter

8. Chairperson approves Agenda and Draft Minutes before issuing

9. Arrange meetings and issue papers
Internal Audit Reviews

1. Audit committee identifies next project from agreed plan
2. Audit function arranges dates with outsourced auditor (and agrees terms of reference and KPIs) and PAS Staff
3. Audit function forwards relevant policy/procedure documents to outsourced auditor
4. Audit Function arranges facilities for outsourced auditor (office, access card, staff availability)
5. Draft report issued to Audit Function - (follow up with auditor if delayed)
6. Circulate report to CEO, Head of Corporate Affairs and other stakeholders
7. Liaise with outsourced auditor re clarifications, amendments etc.
8. Ensure Management Response completed and appropriate
9. Send agreed copy back to outsourced auditor
10. Outsourced Auditor sends Final Report to Audit Function
12. File with papers to issue to Internal Audit Committee
13. Send copies of all Final Audit reports to C&AG when requested
14. Process requisition and purchase order in necessary. Maintain record of payments and ensure in line with contract
Internal Audit Committee Annual Report

1. Draft in early December
2. Review previous reports and select format and text which has not changed
3. Review minutes of meetings approved during year and incorporate activity into report
4. Request information from Finance Unit, Human Resources, CRM/Quality Unit (re CPSA)
5. Send draft report to Head of Corporate Affairs for approval and then issue to Chair of IA Committee
6. Include draft report as item on agenda of 1st meeting of year
7. Make any amendments following meeting and re-issue for final approval
8. Arrange for Committee members to sign final report
9. Draft cover letter from Chair to Accounting Officer and send to Chair for approval
10. Issue final report and cover letter to Accounting Officer
11. Chair of Audit committee will present report to Board
12. Draft response from Accounting Officer to Chair and issue once approved
13. File copies of final report and letters in Internal Audit Folder
14. File soft copy in "Official Documents" folder
15. Include Annual Report with Documents issued to C&AG when requested
Follow up Procedure

1. Extract summary of recommendations from final audit report and save as new document in Follow-up folder

2. Insert columns to facilitate management responses (see previous follow up reports)

3. Forward document to stakeholders and advise date for response

4. Send to Head of Corporate Affairs for approval

5. Circulate hard copies of follow up document at Internal Audit Committee meeting

6. File final report, hard copy of document and initial responses

7. Develop cover sheet to file with follow up reports and update with dates follow up carried out

8. Update Excel spreadsheet recording number of recommendations implemented and still o/s

9. Continue process for each meeting until all recommendations are implemented
Preparing Audit Plan

1. Develop plan every three years

2. Review Risk Registers and request suggestions from Risk Management Group

3. Request suggestions from Board, the Management Board, Senior Management and Recruitment Managers

4. Include areas which Audit Committee agreed to include in each audit plan i.e. payroll, accounting and reporting (see previous plan)

5. Draft Strategic Audit Plan

6. Forward to Draft to Board and Management Board

7. Forward to Chair and then to Committee Members

8. Update with any suggestions and circulate to Board, Management Board, Audit Committee

9. File in Official Documents and on the IA page of the Intranet and hard copy in IA File
## Audit Checklists

### Appendix I - Definitions

<table>
<thead>
<tr>
<th>Term</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Risk</strong></td>
<td>Risk is defined as anything that prevents an organisation from achieving its objectives.</td>
</tr>
<tr>
<td><strong>Risk Identification</strong></td>
<td>The process of determining what risks might happen, why and how</td>
</tr>
<tr>
<td><strong>Risk Policy</strong></td>
<td>The risk policy sets out the PAS’s position with regard to the standards for identification, assessment, tolerance, mitigation, monitoring and reporting of risk as set out by the communication of the PAS’s risk appetite.</td>
</tr>
<tr>
<td><strong>Risk Management</strong></td>
<td>Risk Management is the process by which risks are identified, assessed, managed and controlled.</td>
</tr>
<tr>
<td><strong>Risk Assessment</strong></td>
<td>Risks are assessed and prioritised by the Senior Management Team on the combined basis of their likelihood of occurrence and the resulting impact should they materialise.</td>
</tr>
</tbody>
</table>
| **Risk Exposure**     | The chance or possibility of loss or harm arising from a failure in business operations. An exposure has two dimensions:  
                        | • The magnitude of the loss or harm (impact); and  
                        | • The vulnerability of the organisation to a process failure arising (likelihood). |
| **Risk Impact**       | A measure of the damage/harm arising from the adverse consequence suffered by an organisation as a result of an operational failure. The impact on the PAS if the risk actually happens is estimated using a scale of 1 - 5, where 1 is insignificant and 5 is catastrophic. |
| **Risk Likelihood**   | The degree of possibility of a business operational failure occurring in an organisation. The likelihood of occurrence is estimated using a scale of 1 – 5 where 1 is rare and 5 is almost certain. |
| **Risk Appetite**     | Risk appetite is the level of risk a business is willing to accept based on the accepted return of the activity in question. |
| **Risk Mitigation**   | The strategies and controls including all the policies, procedures, practices and processes in place that are used to prevent or limit the damage caused by a risk materialising. |
# Appendix 2 - Considering the Likelihood of the Risk

<table>
<thead>
<tr>
<th>Rating</th>
<th>Category</th>
<th>Description</th>
<th>% likelihood</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Rare</td>
<td>May only occur in exceptional circumstances; simple process; no previous incidence of non-compliance.</td>
<td>0-20%</td>
</tr>
<tr>
<td>2</td>
<td>Unlikely</td>
<td>Could occur at some time; less than 40% chance of occurring; non-complex process &amp;/or existence of checks and balances.</td>
<td>21-40%</td>
</tr>
<tr>
<td>3</td>
<td>Possible</td>
<td>Might occur at some time; 41%-60% chance of occurring; complex process with extensive checks &amp; balances; impacting on factors outside control of organisation.</td>
<td>41-60%</td>
</tr>
<tr>
<td>4</td>
<td>Likely</td>
<td>Will probably occur in most circumstances; 61% – 80% chance of occurring; complex process with some checks &amp; balances; impacting factors outside control of organisation.</td>
<td>61-80%</td>
</tr>
<tr>
<td>5</td>
<td>Almost certain</td>
<td>Can be expected to occur in most circumstances; more than 81% chance of occurring; complex process with minimal checks &amp; balances; impacting factors outside control of organisation.</td>
<td>81-100%</td>
</tr>
</tbody>
</table>
## Appendix 3 - Considering the Impact of the Risk

<table>
<thead>
<tr>
<th>Level &amp; Description</th>

Appendix 4 – Incident and Near-Miss Report Form

Incident & Near-Miss Report

This form is to be completed as soon as possible following the occurrence of any incident or near miss that has been rated as “3” in terms of impact by the relevant senior manager (see page 3).

An incident includes any errors, process failures, etc. which has impacted on the delivery of PAS services to any of our customers.

A near-miss includes any errors, process failures, etc. which could have impacted on the delivery of PAS services to any of our customers.

All items completed should be based on information that is currently available.

This form may be updated and modified if necessary.

**INCIDENT / NEAR MISS SUMMARY**

Summary Description of Incident/Near-Miss

| How was the incident/near-miss discovered? |  |
| Date the incident/near-miss was discovered |  |
| Date the incident/near-miss is thought to have occurred/started |  |
| Processes affected/potentially affected by the incident/near-miss |  |
| Approximate numbers & types of customers affected/potentially affected by the incident/near-miss |  |
| Is the issue resolved? |  |
| Resolution Date |  |
## INCIDENT / NEAR-MISS DETAILS

### Description of Incident / Near-Miss

*Please provide a description of the incident / near-miss including how it was identified*

### Impact of Incident / Near-Miss

*Please provide a description of the impact/potential impact of the incident/near-miss including processes and/or campaigns affects/potentially affected*

### Cause of Incident

*Please detail how/why the incident / near-miss occurred*
Resolution of Incident/Near-Miss

Please detail any steps taken to mitigate against or resolve the issue and who was involved in problem-solving activities

Additional Information

Please provide any additional information that you feel is important but has not been provided elsewhere on this form

Remaining Risks

Please provide details of any risks or issues that remain unresolved

Additional Required Action

Please provide details of any further action or risk mitigation strategies that need to occur

Appendix 5 – Risk Appetite Statement

1. Introduction

The purpose of PAS is set out in the primary legislation which establishes PAS\textsuperscript{3}. The Act states that the core role of PAS is to be “\textit{the centralised recruitment, selection, and assessment body for the Civil Service and to provide a similar service, where requested, to the local authorities and Health Boards, the Garda Síochana and any other public service body}” (s.34(1)(a) of the Act). Under the Act, PAS may also provide recruitment-related advisory and related services to the Civil Service, Local Authorities, the Health Service Executive, the Education Sector, An Garda Síochána, other public bodies and non-commercial semi-state agencies, when requested (s.34(1)(f) of the Act).

The ability of PAS to effectively fulfil this mandate rests, among other things, on its reputation as an organisation of the highest integrity and professionalism.

This Statement considers the most significant risks to which PAS is exposed and provides an outline of the approach to managing these risks. All strategic plans and business plans for functional areas must be consistent with this Statement.

2. General Statement of Appetite

PAS faces a broad range of risks reflecting its responsibilities as a central provider of recruitment and selection services to the public service.

Reputational risks (particularly those for areas which are not fully within the control of PAS) can be significant. These risks are managed through detailed processes that emphasise the importance of integrity, maintaining high quality, and public accountability.

In terms of operational issues, PAS has a low appetite for risk. PAS makes resources available to control operational risks to acceptable levels. PAS recognises that it is not possible or necessarily desirable to eliminate some of the risks inherent in its activities.

\textsuperscript{3} Public Service (Recruitment and Appointments) Act, 2004 – hereinafter referred to as “The Act”.

48
Acceptance of some risk is often necessary to foster innovation within business projects (particularly those risks related to the increase in use of technology in PAS).

Where PAS does not have control over the full recruitment to appointments process (e.g. State Boards) PAS has a willingness to accept a medium level of risk which will be carefully managed through adherence to the appropriate Guidelines or Codes in place. Where risks are necessary to introduce innovations to the business (e.g. online testing, asynchronous interviewing) PAS will accept a medium level of risk. Before any new process or technology is introduced PAS will complete a thorough risk assessment process to ensure these risks are effectively controlled or mitigated.

### 3. The Risk Management Framework

The PAS risk management framework seeks to ensure there is an effective process in place to manage risks across the organisation. Risk management is integral to all aspects of PAS activities and is the responsibility of all staff. Managers have a particular responsibility to evaluate their risk environment, and put in place appropriate controls and to monitor the effectiveness of those controls. The risk management culture emphasises careful risk analysis and management of risk in all business processes.

Risks are identified, assessed and managed at both business level and at a strategic level. The Risk Management Group has oversight of these processes, and conducts a “deep-dive” into all risk registers on an annual basis. The Group meet at least eight times a year and provides an update on its activities to the Management Board after each Risk Management meeting. The annual plan for the Risk Management Group is submitted to the Management Board and the Board of PAS for approval.

### 4. Coverage

The PAS attitude towards its key strategic, reputational, financial, and operational risks is described below.

#### 4.1 Strategic Risks
PAS aspires to be the recruitment provider of choice in the public service measured by the quality and effectiveness of its operations. This requires ongoing development and innovation in its operations through strategic business projects and initiatives. PAS has a low appetite for threats to the effective and efficient delivery of these initiatives. It recognises that actual or perceived inability to deliver strategic initiatives could have a significant impact on its ability to achieve its objectives as well as its reputation.

The PAS management Board meet regularly to discuss these strategic projects. A framework is in place to ensure these initiatives are prioritised appropriately and are managed and reported on a consistent basis.

4.2 Financial Risks

PAS is responsible for the effective use of public funds and takes this responsibility very seriously. PAS has a high level of controls in place in order to manage all financial resources and to reduce the risk of fraudulent activities. Expenditure is monitored on a monthly basis by the Senior Management Team.

4.3 Operational Risks

Risks to the operations are carefully analysed in all PAS operational activities.

**IT**

PAS has a low appetite for risks to the availability of systems to support critical business functions; the maximum recovery times have been identified and agreed with the recruitment and selection units. PAS has a low appetite for threats to PAS operations arising from external malicious attacks. To address this risk, PAS aims for strong internal control processes and the development of robust technology solutions. PAS is greatly dependent on the internet and email to communicate with candidates and therefore cannot completely mitigate this risk.
The implementation of new technologies creates new opportunities and new risks. PAS has a low appetite for IT system-related incidents that are generated by poor change management practices.

**Fraud and Corruption**

PAS has no appetite for fraud or corruption perpetuated by its staff. PAS takes all allegations of suspected fraud or corruption very seriously and responds fully and fairly as set out in the Anti-Fraud and Corruption Policy.

**Physical Security**

PAS strives to provide a highly-secure environment for its staff and customers by ensuring its physical security measures meet high standards. PAS has a very low appetite for failure of physical security measures.

**Compliance**

PAS is committed to a high level of compliance with relevant legislation, regulation, CPSA Codes and similar guidelines for PAS, Codes of Standards, in addition to internal policies and sound corporate governance principles. Identified breaches of compliance will be remedied as soon as practicable. PAS has no appetite for deliberate or purposeful violations of legislative or regulatory requirements.

**Information Management**

PAS is committed to ensuring that information is managed in compliance with Data Protection requirements and that the confidentiality of customers is maintained. PAS has a very low appetite for risks in relation to breaches of confidentiality.

5. **Implementation of the PAS Risk Appetite**

The Heads of all Units (at AP level) are responsible for the implementation of, and compliance with, this Statement.
5.1 PAS Risk Appetite Statement is published on the Intranet and on the Corporate Governance section of publicjobs.ie.

5.2 Risk Assessments
Each unit maintains a Risk Register of the business risks it faces in its day-to-day operations and the control framework which is in place to mitigate risks. These Registers take into account risks from within PAS and external sources and are reviewed every six months. Risk registers are also updated when there are key changes in policies or procedures or when controls have to be amended as a result of additional risks or an evaluation of “near misses”.

A Corporate Risk Register which includes all of the major risks facing PAS is in place and reviewed by the Management Board on a quarterly basis.

Staff can bring new risks or “near misses” to the attention of the Risk Management Group. Additional controls will be put in place to address such risks and the risk may be escalated to the Management Board depending on the rating of such risks.

6. Review

This Risk Appetite Statement will be reviewed on an annual basis in conjunction with the Audit and Assurance Arrangements document. Proposed changes to the Risk Appetite Statement will be agreed by the Management Board and any revisions will be circulated to the Audit Committee. The Audit and Assurance Arrangements will be circulated to the Board on an annual basis.
